

YOUR RUWAC UK SUPPLIER

Motion stands as your premier UK source for RUWAC recovery systems. From parts and routine maintenance to consultancy and new equipment, the Motion team is dedicated to helping you adhere to health and safety extraction guidelines.

PARTS

From filters and hoses to trays and wheels, we stock a variety of standard spare parts and consumables for RUWAC machines at our headquarters. For parts that require ordering, we offer several delivery options, ranging from standard to express.

To guarantee the appropriate parts are ordered for your equipment, we request the machine's serial number. This ensures the right components are selected and dispatched for your specific machine.

SERVICING/ REPAIRS

It's essential that your machines function correctly, meet the required standards, and adhere to health and safety regulations for optimal operation. Our engineers, trained by RUWAC in Germany, are proficient in conducting comprehensive servicing and testing of RUWAC machines, guaranteeing their performance and safety.

CONSULTING

Determining the right extraction system for your setting can be challenging. Our team provides an initial complimentary consultation to guide and support you in selecting the ideal extraction system tailored to your environment. Whether it's centralized built-in systems or portable units, our experts will evaluate potential risks, pinpoint necessary introductions, and walk you through the installation and commissioning phases.

NEW MACHINES

Have you got a machine that needs upgrading or replacing? Our sales team are on hand to advise on replacement machines, built to order, by hand in Germany to the exact specifications to your site.

NEW RELEASE

Presenting the cordless collection! RUWAC has unveiled a new line of cordless vacuums to enhance their product offerings. Reach out to our team to discover more about these wireless alternatives.
