(THE ALL-ROUNDER)

Simple - Powerful - Practical

BlueEvolution S+

The BlueEvolution offers unmatched flexibility among professional steam-vacuum cleaners. With three settings each for steam and suction power, and a control valve for continuously adjusting the hot water inflow, you can customise the soaking effect to your exact needs. This ensures maximum cleaning efficiency while being gentle on the environment.

The BlueEvolution is an eco-friendly cleaning system that uses only clear water, reducing water consumption and eliminating the need for chemicals. Its versatility makes it ideal for high-traffic areas, efficiently cleaning large spaces with minimal effort while effectively eliminating pathogens.

- ✓ Touch Screen Operation
- ✓ UVC Light
- ✓ 3M Long Hose
- ✓ 4 Minute Heat Time
